Snow White

Kauri

Scroll Fascia

Safety Tassel

Tapered Base Rail

Features

Looking for a fashionable window treatment that combines both affordability and style? Then look no further. The TimberStyle offers both the look of timber combined with the practicality of easy care, high density polystyrene. Particularly when looking for a blind that is suitable for areas that may be subject to water or steam, like a bathroom, laundry or kitchen, the TimberStyle is the answer.

Operation

Adjust the angle of the blades to achieve the desired light control or privacy by simply pulling the cord operated tilting mechanism. Alternatively lift the blind out of view or for cleaning purposes by pulling the lifting cords and locking the blind into position.

Colours

The TimberStyle range will enhance any décor style with colours ranging from the brilliance of the Snow White through to the warm timber look of Coachwood.

Safety

Breakaway tassels ensure these blinds conform to Australian Safety Standards.
